Drama Club II

Unit 1 of 8

Drama Club II is your chance to write an entire play. Unit 1 will be the opening of your show. The following units will carry the action along with the next one to two scenes. Before you start, you'll need to conceive your entire story line, and think about character development, sets, costumes, and props. Remember you're writing for the stage, *not* the movies or television. The audience will only know the story through your characters' dialogue. Remember to keep stepping back and putting yourself in the audience as you watch the actors tell the story.

After this Unit you won't be receiving anymore instructions. When you receive CG's feedback for the scene/s you have written, move on to the next ones!

CURTAIN UP!
